DIAMOND CONNECTION

**Owner of Beverly Hills Diamonds**  
*offering returns of up to 20% to 30% and more.*

## Family Offices, Wealth Managers, Equity Firms & UHNWI's

We're inviting you to convert your liquidity into high-jewelry diamonds, and for good reason. When economic conditions and currencies are unstable, acquiring assets is *smart*. Buying jewelry & precious metals has always been a safe way to secure wealth, especially for the wealthy. Nations are now scrambling to hoard gold and assets with the U.S. Dollar waning and the impending threat of un-backed digital currencies looming.

*"Adding jewelry and precious metals to your portfolio is an essential move when diversifying your assets as they provide a hedge against inflation and fluctuating economies while helping you lower overall risk. These assets essentially act as 'wealth insurance' and have real profit potential as well."*

With **Beverly Hills Diamond Connection** you get guaranteed high-returns of 12, 20, 30%. This, in addition to protecting your liquidity when converting to insured jewelry assets, making us quite possibly your best option for earning extremely high-returns on your current cash and savings.

### Why diamonds?

Diamonds & high jewelry transport easily, take up little space, are insurable and hold very high markup. But few can access this protected sector at the profit level within an industry which maintains such strict entry. Enter **Beverly Hills Diamonds** who created a special "connection" allowing you to share in the profit of jewelry.

### Why us?

**"We created something that's never been done before.** Prior to us, no clear path existed to convert diamond assets back to liquidity at a profit, since most jewelers typically offer just 5-10% when buying jewelry back. But we convert you at a discount and you are guaranteed generous, fixed returns upon exiting. We allow you, or those you represent, to be a 'silent partner' in the retail jewelry industry requiring nothing more than the purchase. We then return to you considerable profit (see schedule). And profit you will from this consignment!"

### Secured & Insured

To **guarantee** your extremely high-return all assets are **GIA certified**, expertly **appraised**, and **insured** by Jewelers Mutual assuring you maintain zero risk. For those choosing to purchase \$5M and more we offer a **secondary revenue** as a limited partner-owner (percentage of sales and/or overall Net), adding to your profit. The jewelry industry is extremely well and is projected to increase by \$552.74 billion through 2034 (45%).

With our available high-jewelry inventory exceeding \$2.2B, we invite you to earn extremely high returns with no risk. A minimum \$50,000.00 is required, although an initial purchase of \$5M or higher is recommended for greater returns (two year term). Consider your entry position and arrange for your deposit today.

### *How do we do it?*

As experts in the industry we buy large carat high-value diamonds below wholesale. We design, create, then sell at retail through our brand assets, which include **Beverly Hills Diamonds** among several others, both online and off, enjoying significant margins which we share with you.

**BE PART OF A HIGH-RETURN PURCHASE THAT GUARANTEES YOU MORE WEALTH**

**- THE NUMBER OF AVAILABLE POSITIONS ARE LIMITED -**

**Don't delay. Arrange your purchase today (please request our bank wire details).**

**If you know of any other secure way to get higher returns than these – *please let us know!***

With the **Beverly Hills Diamond Connection** you are purchasing GIA certified diamond high-jewelry to consign back. We then offer the jewelry for sale with retail markup, keeping it in top-rated vaults and safes under high-security always fully insured. When the term has completed you are repaid along with your **GUARANTEED PREMIUM RETURN**.

**FOR A LIMITED TIME - THESE RETURNS CAN BE YOURS**

**Right now, you can lock down these exceptional returns**  
**A LIMITED NUMBER OF POSITIONS REMAIN AVAILABLE**
